# STAKEHOLDER CONSULTATION REPORT

---

PUBLICATION DATE **05.05.2022**

VERSION **v. 2.0**

RELATED SUPPORT

**TEMPLATE GUIDE Stakeholder Consultation Report v.2.0**

---

This is a report template to be used for filling the information pertaining to Local Stakeholder Consultation and Stakeholder Feedback Round conducted in line with the [Stakeholder Consultation and Engagement Requirements](#).

This document contains the following Sections

[Key Project Information](#)

[Grouped Consultation Information](#)

[SECTION A - Information made available to Stakeholders](#)

[SECTION B - Invitations made to Stakeholders](#)

[SECTION C - Report of the Consultation Process](#)

[SECTION D - Continuous input / Grievance mechanism](#)

[SECTION E - Stakeholder Feedback Round](#)

## KEY PROJECT INFORMATION

<b>GS ID of Project</b>	GS12944
<b>Title of Project</b>	OYU - Building Sustainable Nigerian Communities VPA01
<b>Version number of this Report</b>	1.2
<b>Completion date of version</b>	18/09/2024
<b>Time of First Submission Date</b>	09/07/2024
<b>Start Date of the Project</b>	01/08/2023
<b>Date of Meeting(s)</b>	25/07/2024
<b>Project Cycle:</b>	<input type="checkbox"/> Regular <input checked="" type="checkbox"/> Retroactive

## GROUPED CONSULTATION INFORMATION

<b>GS ID of Real Case VPA</b>	N/A
<b>Title of Real Case VPA</b>	N/A
<b>Geographical Boundary of Grouped Consultation</b>	N/A
<b>Technology covered by the Grouped Consultation</b>	N/A
<b>Validity Period</b>	N/A
<b>Anticipated number of VPAs</b>	N/A

## SECTION A. INFORMATION MADE AVAILABLE TO STAKEHOLDERS

### A.1. Preliminary agenda for the meeting

>>

The meeting started with an overview of the organization and the project's objectives. Project Proponent representatives have explained the project's goal: promoting and adopting clean and efficient cookstoves (ICS) in Nigerian households. The primary purpose of the stakeholder consultation meeting is to communicate the advantages of the improved cookstoves (project device) effectively.

Field coordinators were asked to provide a comprehensive overview of the project's objectives, emphasizing:

- Improvement of health and livelihoods for numerous individuals.
- Reduction of carbon emissions.
- Promotion of sustainable development.
- The disadvantages of the baseline stoves had been discussed, including:
- Health issues and other challenges faced by users of the baseline device.

The team introduced the energy-efficient project device to the stakeholders, highlighting its benefits:

- Reducing air pollution.
- Mitigating climate change.
- Conserving natural resources.
- Promoting ecosystem preservation.

### A.2. A non-technical summary of the project

>>

The project activity replaces the traditional stoves by a more efficient project device, as a result of which the indoor air pollution in the households of the project area reduces. As a part of project, project devices were distributed beginning from the year 2023 and concluded in 6 months. During the registration of the project device, the beneficiaries agreed to transfer ownership of the VERs produced by using the project device to OYU Green Private Limited.

### Purpose and Project Design of the Voluntary Project Activity (VPA)

Biomass Consumption, like burning wood or charcoal, has a lot of negative effects on the environment. It leads to cutting down trees, ruining land, and releasing greenhouse

gases. Furthermore, Indoor Air Pollution ("IAP") generated via the emission of pollutants while combusting woody biomass e.g., charcoal, accelerates the probability of contracting respiratory diseases. The distribution of these energy efficient project devices will generate significant emission reduction contributions and further augment long term end-user and community co-benefits as outlined in the discussion on SDG impacts below. The related VPAs shall be implemented by the Coordinating and Managing Entity (CME) of the proposed PoA. The VPAs will be certified by the Gold Standard for the Global Goals ("Gold Standard") applying the Gold Standard methodology "Methodology for Technologies and Practices to Displace Decentralized Thermal Energy Consumption" (TPDDTEC) V.4.0.

The CME has trained a team of field coordinators who are responsible for the distribution and end user education on project device use. Distribution will focus on the rural communities of Nigeria. The distribution of the project device commenced in 2023.

### **Target Groups**

The target groups of beneficiaries envisaged are households which use biomass such as wood and charcoal as their primary source cooking fuel, in the baseline scenario. These clean cooking VPAs have been designed to distribute highly energy efficient project device.

### **Implementation Plan**

- Baseline KPTs running through the baseline survey were initiated to determine the baseline scenario in accordance with the specified methodological requirements.

Local Stakeholder Consultations take place in different locations across Nigeria. The LSCs present an opportunity to bring together various stakeholders such as end users, local and international NGOs, Women's Group members and local and national government officials to discuss the project. The LSCs specifically had addressed the project's design, environmental and SDG impacts. Feedback had been collated from the LSCs and Stakeholder Feedback Rounds have been assessed with a view to improving the overall VPA design, enhancing the positive attributes and mitigating any real or perceived negative effects.

- Stove distribution commenced in 2023. Each household receiving a project device distributed through the project is informed of the carbon project by the field coordinator. Each stove has a unique serial number and user details were

collected to avoid double counting emission reductions.

- A random selection of households serves as the monitoring sample cohort. Once monitoring is complete, the Gold Standard shall certify the reported and verified claims prior to issuance.

### Carbon credits

Reducing the use of non-renewable biomass can lower greenhouse gas emissions, which in turn can earn carbon credits by complying with GS certification guidelines and procedures.

### CONTRIBUTION TO SUSTAINABLE DEVELOPMENT GOALS (SDGS) IMPACT

- Less harmful carbon monoxide and particulate matter during combustion in households will reduce indoor air pollution and thereby decrease of respiratory diseases, headaches, and itchy eyes, particularly for women and children who spend lot of their time in cooking activities **(in line with SDG 3 'Good health and well-being')**.
- Time savings associated with for fuel collection and cooking, thus more time is available, for other tasks, like income generating activities or for growing food **(in line with SDGs 5 'Gender Equality')**.
- The project has created job opportunities for staff involved in marketing, distribution, and monitoring activities **(In line with SDG 8'Decent Work and Economic Growth')**

### A.3. Contact details to get further technical detail and project information

>>

Organisation name	OYU Green Private Limited
Country	India
Address	Plot 1, Sector C Rd, Govindpura Industrial Area, Bhopal, Madhya Pradesh
Telephone	+91-989 375 8888
Email	<a href="mailto:deepg@oyugreen.com">deepg@oyugreen.com</a>
Website	<a href="http://www.oyugreen.in">www.oyugreen.in</a>
Contact person	Mr. Deep Ram Gupta

### A.4. Summary of economic, social and environmental impacts of the Project

>>

The project brings several benefits to the local community:

#### **Environmental Impacts:**

Preserves Nature: Charcoal and wood production often involves cutting down trees. The project devices are more efficient, meaning less wood and charcoal is needed for cooking the same amount of food. This reduces the demand for wood and charcoal and subsequently decreases deforestation rates.

Less Pollution: Lowers both local pollution by using less renewable biomass, cutting down greenhouse gas emissions by the use of energy efficient cookstoves.

Healthier Living: Reduces indoor air pollution, promoting better health.

#### **Economic Impacts:**

Job Opportunities: Creates employment by distribution and monitoring of project device.

Cost Savings: Reduces the need to buy fuel, saving money and time spent collecting fuel source.

#### **Social Impacts:**

Health Improvement: Enhances the well-being of women and children by reducing household air pollution.

Efficient Cooking: Faster cooking time with effective heat transmission

Improved Living Environment: Promotes a cleaner kitchen with less smoke and residue.

#### A.5. Other relevant information to help stakeholders understand the project >>

The project involves distribution of 1,00,000 project devices. The estimated average annual GHG reduction and removals are 242,473 tCO<sub>2</sub>e and total GHG reduction and removals are 12,12,366 tCO<sub>2</sub>e.

## SECTION B. INVITATIONS MADE TO STAKEHOLDERS

### B.1. Invitation tracking table

Category Code	Stakeholder Type/Organisation (if relevant)	Name of invitee	Male/Female	Method of invitation	Date of invitation (>30 days before Meeting)
A	Federal Ministry of Environment	Environmental assessment (EA) department	N/A	info@ead.gov.ng	25/06/2024
A	Energy Commission of Nigeria	N/A	N/A	dg@energy.gov.ng	25/06/2024

### B.1.1. Appropriateness of methods

>>

The CME has sent out invitations for the meeting 30 days in advance to various groups: stakeholders, locals, community members, and representatives impacted by the project, along with national government officials and the National local bodies managing the project. CME also invited a representative from Gold standard.

Recognizing that language barriers can be a barrier to participation, the CME provided invitations in English (the language commonly used in professional communication). They also ensured that materials were available in other relevant languages spoken by the community.

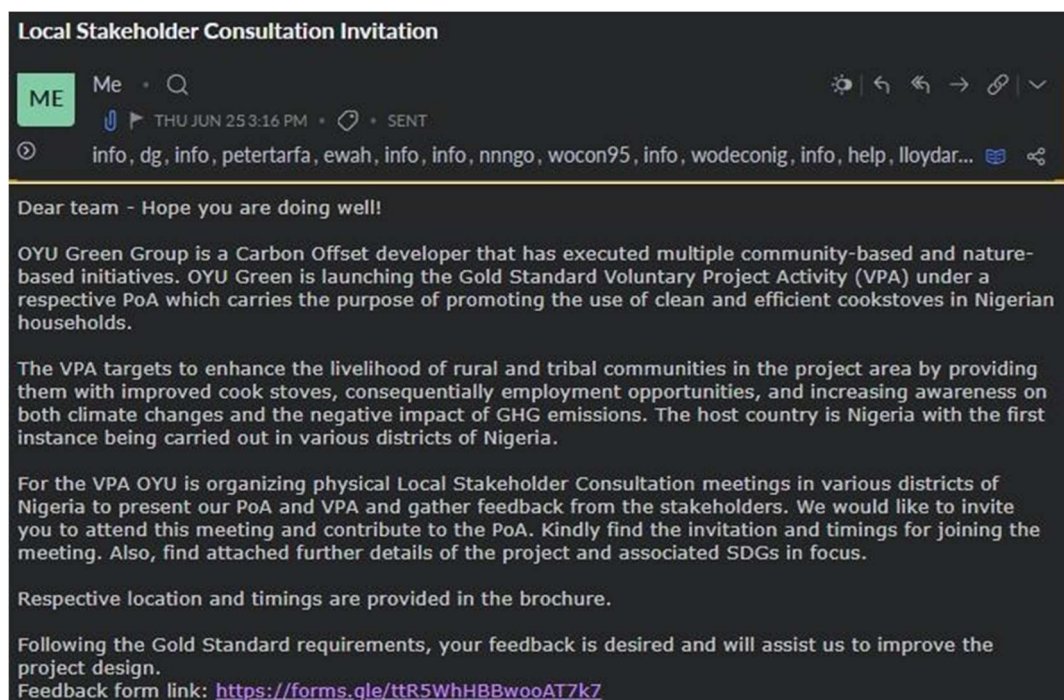

### B.1.2. Gender Sensitivity

>>

During stakeholder identification, women groups were identified and representatives from those groups were invited via emails. A strong focus was placed on inviting women associations and groups to the physical meeting. In addition, comments were welcomed during the meetings from both genders to ensure the male and female perspective were considered.

### B.1.3. Evidence proving invites took place as stated

>>

#### B.1.4. Sample content of invites (for each Method above)

>>

Dear Stakeholders,

OYU Green will implement a Carbon Project Activity that will comprise of providing household with Improved Cookstoves. In this context, a Local Stakeholder Consultation (LSC) is scheduled, and we enthusiastically invite you to participate in this important meeting.

**Meeting Time:** 11:00 AM to 2:00 PM (Nigeria standard time) (25/07/2024)

**Meeting Venue:** Enugu District, Nigeria

The objective of the VPA (project instance) is to enhance the lives of rural and indigenous communities in the project area. This initiative aims to increase employment opportunities and raise awareness about the negative impacts of climate change and greenhouse gas emissions.

We value your feedback. Please extend this invitation to individuals you consider crucial for this VPA. We look forward to meeting you during the consultation.

Yours sincerely,

Team OYU Green

Invitation to Local Stakeholder

**B.1.5. Description of other Means and methods to provide feedback for those who are not able to join the consultation meeting**

>>

The contact details (also available on the company's website) of the CME are provided to ensure that no grievance goes unaddressed.

Also, the CME's website is open to comments from the project stakeholders will be informed the participants about the same.

Invitation Mails were sent containing a feedback form for receiving the comments from relevant parties who were unable to join the consultation meeting.

## SECTION C. REPORT OF THE CONSULTATION PROCESS

### C.1. Date of Meeting

>>

The stakeholder consultation meetings are scheduled to be held on different dates across various districts. In Enugu, the meeting was held on 25/07/2024. Justification of why consultation took place after the project start date

#### C.1.1. Justification of why consultation took place after the project start date (retroactive projects only)

>>

The CME has shared the invitation for the Stakeholder Consultation meeting to all the stakeholder categories.

#### C.1.2. List of participants

Date and Time: 25/07/2024, 11:00AM		Location Enugu			
Category Code	Name of the participant, job / position in the community	Male / Female	Contact details	Organisation (if relevant)	Signature
A	Okey Esse	Male	NA	NA	Yes
B	Igwe	Female	NA	NA	Yes
B	Ugwu Anthonia	Female	NA	NA	Yes
A	Kenneth Uganu	Male	NA	NA	Yes
A	Christian Ukpai	Male	NA	NA	Yes
B	Eze Nagozitt	Female	NA	NA	Yes
A	Anysegbu	Female	NA	NA	Yes
A	Asoywa	Female	NA	NA	Yes
B	Adimora	Female	NA	NA	Yes
A	Ani Soduma	Female	NA	NA	Yes
A	Aneke	Female	NA	NA	Yes
B	Uche Aborch	Female	NA	NA	Yes
A	Maduelcwe	Female	NA	NA	Yes
A	Onwuaso Ngozi	Female	NA	NA	Yes

### C.1.3. Pictures from the physical meeting(s) (best practice)

>>

Local Stakeholder meeting

## C.2. Minutes of physical meeting(s)

>>

The meeting has been conducted in the same order detailed in the minutes of the meetings below:

**Registration of the attendees:** Participants who attended the physical meeting will be asked to sign the attendance sheet.

**Welcome Remarks:** Participants in person were welcomed by the CME representatives, for all the meetings. Introductions of the present participants was done for both the physical meetings and for the stakeholders who participated online. The purpose of the meeting and the agenda was explained to the audience.

**Project's Presentation:** The CME representatives had started the presentation by explaining the project in detail; they had presented the main goals of the program and its benefits for the local communities, as well as the ICS technology involved in the project. They also reminded the stakeholders about climate change and its causes, and they had briefly explained the theory of the carbon credits, carbon markets and the development of carbon projects. The team had explained the stakeholders that the transfer of rights to the carbon credits generated using the stoves would be transferred to OYU - Green Private Limited of the entire project.

**Closure of the meeting:** The CME representatives had presented the grievance mechanism that was discussed with all stakeholders. Also, the next steps regarding project implementation and contact details was shared with the participants. In the end, the feedback forms were distributed to the participants. The team had expressed its appreciation to all participants who attended the meeting and who offered many constructive suggestions.

### C.2.1. Minutes of other consultations

>>

N/A as there are no other consultations reported through this document

### C.3. Assessment of comments from all consultations above

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/No)?	Explanation/ Justification (Why? How?)
Female	What is the benefit we will get from this ICS	Yes	User will get health benefits, fuel savings, fuel purchase savings and save cooking time
Male	Can we use this stove to cook Non – veg food	Yes	Yes, the users can cook any type of meal on ICS

#### C.3.1. Evaluation forms (best practice)

Name	Aneikwe Lucy
Gender – Male/Female:	Female
What is your impression of the meeting?	Awareness creation
What do you like about the project?	Less cost, protective
What do you not like about the project?	Nothing
Signature	Yes

Name	Adimora Ugochukwu
Gender – Male/Female:	Female
What is your impression of the meeting?	This meeting was so helpful to know about the Improved cookstove
What do you like about the project?	That the ICS required the less fuel and take less time to cook
What do you not like about the project?	Nothing
Signature	Yes

Name	Igwe
Gender – Male/Female:	Female

What is your impression of the meeting?	Very impactful
What do you like about the project?	Looking forward to it
What do you not like about the project?	Nothing
Signature	Yes

Name	Ugwu
Gender – Male/Female:	Female
What is your impression of the meeting?	Clean and Safer
What do you like about the project?	Loved it
What do you not like about the project?	Nothing
Signature	Yes

Name	Eze Nagozitt
Gender – Male/Female:	Female
What is your impression of the meeting?	Very interesting
What do you like about the project?	Economically and easy to use
What do you not like about the project?	Nothing
Signature	Yes

#### C.4. Summary of alterations based on comments

>>

The project remained unchanged, with no modifications or alterations. The meeting did not yield any comments or suggestions that necessitated changes to the project's activities.

## SECTION D. CONTINUOUS INPUT / GRIEVANCE MECHANISM

	<b>Method Chosen (include a Justification of Choice known details e.g. location (best practice) of the book, phone, number, identity of mediator)</b>
Continuous Input / Grievance Expression Process Book (mandatory available at the office at the	Continuous input /Grievance Expression process book is the stakeholders who want to share their comments/grievances

following addresses: physically and are not acquainted to other means of communication.

Office (Nigeria)  
Suite 62 Nandu Plaza, Ndola  
Crescent, Wuse Zone 5,  
Abuja, Nigeria.

Office (India)  
OYU Green Pvt. Ltd., Plot  
No.1, 1st Floor (B), Sector-  
C, Industrial Area,  
Govindpura Bhopal MP  
462023 IN

GS Contact (mandatory)	help@goldstandard.org	This method was chosen to include the stakeholders who want to write to Gold Standard
Telephone access (optional)	+91- 989 375 8888, +234-703-492-2494, +234-805-648-3629	This method provides an instant resolution and is a convenient channel
Internet/email access (optional)	deepg@oyugreen.com	The participants were made aware about this mode of communication so grievances don't go unanswered in case of a non-revert from other channels (e.g. Holidays)
Nominated Independent Mediator (optional)	N/A	N/A
Other	N/A	N/A

SECTION E. STAKEHOLDER FEEDBACK ROUND

☐ Please check this box if the project is retroactive and has done only 1 consultation with a physical meeting integrated into the SFR.

E.1. Length of the Feedback Round

Stakeholder Feedback Round		Planned	Actual
Start Date	25/07/2024	<input type="checkbox"/>	<input checked="" type="checkbox"/>
End Date	Ongoing	<input checked="" type="checkbox"/>	<input type="checkbox"/>

E.2. Summarise how all stakeholders were/will be invited to provide feedback

>>

Stakeholders were requested to complete the physical feedback form. Also, the link of the google feedback form has been sent to the stakeholders with invitation mail.

E.3. Summarise Feedback received, including if any changes in project design were made

>>

No comments were raised in regard to change of the project design

## APPENDIX: Attendance Sheets of the Stakeholder Consultation Meeting

OYU GREEN PRIVATE LIMITED

Plot No. 1 (F), Sector C, Industrial Area, Govindpura

### Feedback Form (Improved Cookstove Project - ICS)

Purpose: Local Stakeholder Consultation  
 Project title: OYM - BUILDING SUSTAINABLE NIGERIAN COMMUNITIES  
 Project Participant: OLEY ESE  
 Name of Person: UGWU ANTHONIA  
 Gender of Person: FEMALE  
 District/ Village: OKBA NSUKKA

Category	Question	Answer
General question	Are you aware of the Improved Cookstove (ICS) Project in your region?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Social impact	Does the ICS project provide you with livelihood opportunities in your region?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Is the ICS project contributing to the development of the nearby area?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Do you believe that the ICS project shall provide socio-economic benefits?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Do you believe that the ICS project shall improve your health?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Environmental positive impact	Do you think that this project will help mitigate the effects of climate change in the community?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Do you believe that the project will contribute to reducing greenhouse gas emissions?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Do you believe that the ICS project shall have a positive impact on the area by reducing air pollution?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Do you believe that the ICS project shall have a positive impact on the area by Reducing deforestation?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Environmental negative impact	Are you concerned about the potential negative impacts of the project?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
	Are you concerned about the negative impact of the baseline stove (Traditional cookstove)?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
	Does any negative impact is generated due to this project?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

What is your impression of the meeting?	I love it!
What do you like about the project?	Clean, Safe & not expensive

### Feedback Form (Improved Cookstove Project - ICS)

Purpose: Local Stakeholder Consultation  
 Project title: OYU BUILDING SUSTAINABLE NIGERIAN COMMUNITIES  
 Project Participant: Aniekwe Lucy Okey ESSE  
 Name of Person: Aniekwe Lucy  
 Gender of Person: F  
 District/ Village: ~~Imo~~ Obeleagu Umang

Category	Question	Answer
General question	Are you aware of the Improved Cookstove (ICS) Project in your region?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Social impact	Does the ICS project provide you with livelihood opportunities in your region?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Is the ICS project contributing to the development of the nearby area?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
	Do you believe that the ICS project shall provide socio-economic benefits?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
